

IT'S MY LIFE

Theme: Responsibility

Three-Screen School Assembly for Grades 6–12

From the moment we are born, we're told what to do, how to act, what's appropriate to wear, even what is healthy to eat. But as we grow up, we begin to feel the need to make our own decisions, we desire to choose what is right for us. After all, **IT'S MY LIFE**.

IT'S MY LIFE is a thought-provoking three-screen school assembly program that focuses on the desire for control; our quest for independence; and the power to choose what we feel is best for our lives. Students will learn that the power to choose requires a heavy dose of personal responsibility, and that making the responsible choice isn't always easy – that often the fun choices are in direct conflict with the responsible choices.

There's a lot of pressure out there to make poor choices with consequences we may not like. Bullying, drugs, alcohol, and smoking are just a few of the irresponsible choices we will be tempted with along the way. By learning how to manage our time correctly, and by discovering and pursuing the skill we enjoy, we can avoid those pressures that hold us back from moving forward with our lives. With practice, we can develop the skills necessary to make the right choices and act responsibly when facing difficult situations.

IT'S MY LIFE is a motivational school assembly that will challenge your students to make positive choices for themselves, while they demonstrate respect for those around them.
