

Motivational Student Development Program

Grades K—5

Streaming to the classroom when you want it!

Theme: Responsibility & Encouraging Others

COOL TO BE NICE Is an engaging interactive school assembly. The program will motivate your students to take responsibility in looking for the best interest of others by being an encouraging voice.

The program focuses on how a few simple words of encouragement makes others feel good about themselves. Also why we shouldn't pay attention when people are not being encouraging to us. We want those around us who we can count on to help us through a difficult time and those who will stand with us when we see or encounter a bullying situation.

Bullying, playing games, or just social influence are a few of the distractions that your students will be tempted with along the way. Learning how to resolve conflict with others instead of blaming or making excuses makes time at school a whole better place.

COOL TO BE NICE will motivate students to:

- ◆ Develop social awareness
- ◆ Healthy self-esteem
- ◆ Positive social interactions
- ◆ Handling social conflicts.

COOL TO BE NICE is a incredibly powerful motivational school assembly challenging your students to make positive choices for themselves while demonstrating respect for those around them.
