

Motivational & Engaging Interactive Assembly

For Grades 6-12

DARE TO MOVE

Theme:

Commitment & Perseverance

DARE TO MOVE; set your future in motion! The old saying, “a rolling stone gathers no moss,” is accurate. If you want to move toward a bright future for yourself, you’ll need to move. But moving can be a scary thing; moving requires risk. Moving can be fulfilling and rewarding but can also lead to temporary failure and periods of disappointment.

For a car to run, it takes a spark; not just one, but many, over and over again, consistently – controlled “explosions,” that propel the car forward. No engine will always run smoothly; there will be times when it feels sluggish, or when it just needs some extra attention to get back to running efficiently.

DARE TO MOVE will challenge your students to:

- overcome their fear of failure and to move forward to achieve their goals.
- persevere through tough times and to thrive in the face of challenges.
- encourage their peers and to work together as a team.

Camfel Productions’ **DARE TO MOVE** is a motivational school assembly that will emphasize the importance of being involved, the benefits of being motivated to learn, and the rewards of hard work vs. the downfalls of procrastination and self-isolation.
